

WHAT IS ATLAS V?

With a track record of 100% mission success, ULA's Atlas V rocket has successfully delivered spacecraft to orbit for the Space Force, NASA and others.

Atlas V has launched spacecraft in support of:

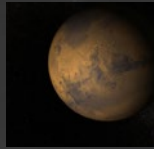

**EARTH
SCIENCE**

**WEATHER
PREDICTION**

**NATIONAL
SECURITY**

**SPACE
EXPLORATION**

**INTERNET/
BROADCAST**

**GPS/
MAPPING**

Teachers! Have your classroom work together to create a piece of art or create a written piece (article, story, poem, song) on how Atlas V has helped improve our daily lives by launching critical missions. Tag @ulalaunch on social or email submissions to swag@ulalaunch.com.

Check out the links on the right to do the necessary research to get started on your project.
